

TWIN BUTTE
ENERGY LTD.

Twin Butte Energy Ltd. is a growing, value oriented intermediate producer with a significant low risk, high rate of return drilling inventory focused on large original oil in place conventional medium and heavy oil exploitation.

With a stable low decline production base, Twin Butte is well positioned to live within cash flow while providing shareholders a sustainable dividend and moderate per share production growth potential over both the short and long term. Twin Butte is committed to continually enhance its asset quality while focusing on the sustainability of its dividend. The common shares of Twin Butte are listed on the TSX under the symbol "TBE".

We are currently recruiting for an **Asset Integrity Technologist** in our Lloydminster Office. Reporting directly to the Manager, Facilities Engineering this role provides the opportunity to be involved in a full range of responsibilities including the following:

ACCOUNTABILITIES:

- Ensure that correct technical and regulatory information is provided to Twin Butte Energy personnel who make decisions regarding pipelines and related surface equipment.
- Implement the corporate Pipeline, Tank and Pressure Vessel Integrity Management Programs.
- Assess integrity of all pipeline systems and develop mitigation plans for high risk pipelines.
- Ensure that all pipeline, piping, equipment inspection and repair records are maintained in the history database.
- Develop and maintain accurate list and mapping of all pipeline systems and verify on a regular basis.
- Work with and train operations staff on regulatory compliance, and supporting the Twin Butte Energy Pipeline, Tank and Pressure Vessel Equipment Integrity Programs.

RESPONSIBILITIES:

- Promote, participate and make use of Near Miss reports, Work Site Hazard Assessments, Worksite Observations, safety meetings and Safety Audit inspections to ensure the highest standards for the Company and contractors.
- Provide front-line technical support for Twin Butte Energy on issues related to corrosion, inspection, repair, and all equipment integrity-related regulatory issues.
- Identify candidate pipelines for abandonment or discontinuation.
- Work with operations to co-ordinate all field activities relating to the suspension, reactivation and evaluation of pipelines systems.
- Liaise with regulatory authorities, integrity vendors, engineering contractors, and inspection contractors to manage integrity related issues.
- Co-ordinate day-to-day inspections and interface with site maintenance groups to ensure they are in compliance with Twin Butte Energy requirements.

TWIN BUTTE
ENERGY LTD.

- Ensure that inspection requirements are clearly defined prior to performing inspections by defining the extent of inspection and Non-Destructive Examination (NDE) required as part of the work scope development.
- Work with operations staff on planning and scheduling plant turnarounds, and coordinating preventative maintenance activities to minimize production losses.
- Provide technical support for designated field operations on all corrosion and integrity issues.
- Conduct operations in accordance with Twin Butte's Environmental and Safety Standards
- Work with the Chief Inspector on inspections and repairs of pressure equipment.
- Advise operations on B31.3 repairs and coordinate vendors to do the required work.

QUALIFICATIONS:

- Typically 8-10 years of field based asset integrity experience or oil and gas operations/maintenance experience with a Mechanical, Materials or Metallurgical technologist diploma.
- A Class 5 driver's license
- Strong knowledge of Alberta and Saskatchewan's oil and gas regulations, guides and industry recommended practices.
- Able to work with a variety of stakeholders including Production Foreman, Operations Staff, service providers, engineering, and other integrity technical specialists.
- Pressure vessel, pipeline and storage tank integrity management.
- MS Office and engineering software applications.
- In-Service Inspection with AP1 510 certification.
- Excellent communication, organizational and team working skills complemented by a strong work ethic

Twin Butte Energy offers a comprehensive, competitive total compensation package.
